

*Dormex is a vibrant progressive company that delivers.
Our purpose is to deliver high quality products to our customers on time.*

We stand for commitment to services, trust, integrity, enthusiasm & innovation.

About Dormex

Dormex is a family owned business that was established in 1957 to distribute syringes and other medical equipment. Dormex pioneered disposable plastic syringes, replacing the previously used glass and metal syringes that were more expensive and required constant sterilisation.

Today, Dormex primarily trades in plastic laboratory equipment and pharmaceutical packaging. The company is accredited with ISO9001 quality standard is an approved supplier to the MOD and the NHS.

The company can offer countless variations of containers and closures, plain or decorated. Where companies operate a "just in time" policy, we are able to accommodate, by arranging this into our system.

Dormex stocks a wide range of standard containers and also has the capacity to manufacture to customer specifications. The company will also print designs onto stock and can perform pad printing onto shaped items such as electrical components and glass perfume bottles.

Contents

1. Natural Airless Dispensers

g H97009CL, S9709N, C9709BK
20ml Sifter Jar with all Black Lid

This range of Bostons is made from 100% recycled material PET (PCR). PCR is plastic products that have been recycled, which means they have been reprocessed to be re-used in new manufacturing. PCR conserves energy and non-renewable resources as recycling replaces the need for primary extraction and the manufacture of new plastics.

Bostons in PE
